A4 COLOUR INKJET PRINTERS
WORKFORCE PRO WF-C5290/C5790

EPSON
EXCEED YOUR VISION

BUILT FOR YOUR BUSINESS AND THE ENVIRONMENT.

Enjoy low-cost, reliable printing with Epson WorkForce Pro WF-C5290 and WF-C5790 business printers. Delivering fast print speeds of up to 24ipm with a first page-out time of just 4.8 seconds, these printers are built to handle the most demanding print jobs. With a range of printing and connectivity features, this printer series is the ideal solution for small workgroups that require hassle-free, low-maintenance and productive-boosting printing.

With option of standard ink packs or XL black ink pack.

IT'S IN THE DETAILS.

With PrecisionCore™ printhead technology, Epson WorkForce Pro WF-C5290/WF-C5790 excels with speed, quality and reliability.

PrecisionCore Printhead Technology
Experience enhanced speed, reliability and quality on every print with PrecisionCore technology.

Innovative Replaceable Ink System
Keep budgets low with Epson's Replaceable Ink Pack System (RIPS), which delivers high print volumes at low running costs.

Built For The Environment
Extremely low power consumption and less replacement parts compared to laser printers mean a greater positive impact on the environment.

PRECISIONCORE

DURABrite Ultra INK

Fast, reliable and cost efficient, Epson WorkForce Pro business printers deliver outstanding print performance to edge out laser competitors. With an innovative print system and a wide range of connectivity features, the WF-C5290 and WF-C5790 are the printers you need for your everyday business.
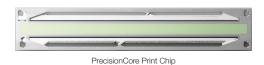

PrecisionCore Printhead Technology

PrecisionCore builds on Epson's longstanding reputation for output quality, at the speeds and reliability required for commercial and industrial printing.

This revolutionary technology enables the WF-C5290 and WF-C5790 to print at blazing default print speeds of up to 24ipm and a first page-out time of just 4.8 seconds. What's more, each print chip is capable of generating up to 40 million precise dots per second to deliver fast printing speeds and excellent output quality.

With advanced built-in Nozzle Verification Technology, the monitoring of nozzle health and print quality adjustments are done automatically without interruption, even during printing. Productivity is further enhanced with a reliable maximum monthly duty cycle of 45,000 pages.

PrecisionCore Print Chip

Simple, cool, contactless technology

Complex technology using heat and pressure

Innovative Replaceable Ink System

Convenience is a top priority. That's why Epson's Replaceable Ink Pack System (RIPS) is designed for easy, hassle-free ink replacements. With each standard ink pack giving you up to 3,000 pages in black or colour and the option to purchase XL black ink pack that prints up to 10,000 pages, you minimise the downtime needed to replace the inks and enjoy greater cost savings.

In addition, Epson's DURABrite™ Ultra ink delivers laser-like quality prints that are water- and smudge-resistant.

Up to 10,000 pages | Up to 3,000 pages | Up to 3,000 pages (composite yield)

Enjoy greater cost-savings with these high-volume ink packs

Designed for easy replacement of ink packs

Built for the Environment

Energy Saving

Demonstrating Epson's ongoing commitment to cut the environmental impact of printing, the new WorkForce Pros are low-power units that use fewer supplies and much less energy than comparable laser models – reducing environmental impact without compromising on output.

Both Epson WF-C5290 and WF-C5790 have remarkably low TEC values of just 0.2kWh. What's more, power consumption during standard operation is kept at a minimum with the WF-C5290 using only 22W and the WF-C5790 at 25W. These are significantly lower than laser copiers/printers. And unlike conventional laser copiers/printers, they use no heat and are more environmentally friendly.

Superior Productivity

Automatic Duplex Printing and Scanning
Both printers support automatic duplex printing of up to 15ipm for A4, reducing paper wastage. The duplex ADF unit (up to 50 sheets) equipped on the WF-C5790 enables convenient scanning and copying of multi-page documents.

Versatile Paper Handling
Both printers can be upgraded with an additional paper cassette to support up to 830 sheets input capacity. Paper of different sizes can be placed in the different cassettes for automatic selection. The rear tray enables the use of special media such as photo media.

USB Host Function
The WF-C5790 comes with a USB port for printing, scanning and saving faxes directly using the memory devices.

LCD Screen
Experience easy set-up and PC-less operation with a 2.4" colour LCD screen on the WF-C5290 and 4.3" colour touch screen on the WF-C5790.

Versatile Connectivity

Network Connectivity and Standalone Capability
Equipped with Ethernet, Wi-Fi, RJ-11 fax (WF-C5790), Wi-Fi Direct, NFC and USB 2.0, these printers are perfect for office environments. What's more, Wi-Fi Direct acts as an access point, allowing up to four devices to connect directly to the printer at a time.

Epson Connect Enabled
Wirelessly print your documents from anywhere in the world with Epson Connect's wide range of features:

- **Epson iPrint** – Print from and scan directly to your smart device or online cloud storage services.
- **Epson Email Print** – Print to any Email Print-enabled Epson printer from any device or PC with email access.
- **Remote Print Driver** – Print to a compatible Epson printer anywhere in the world via the Internet using a PC with Remote Print driver or from mobile devices via the Epson iPrint app.
- **Scan to Cloud (WF-C5790 only)** – Share your scans through email or store them online in cloud storage services.

Other mobile solutions:
- **Apple® AirPrint™**
- **Google Cloud Print™**
- **Mopria™ Print Service**

Advanced Workflow Solutions
Get the most out of your printers with an extensive range of software solutions.

Fleet Management

Epson Device Admin
A free software that allows you to control, analyse and manage your printer fleet centrally from one intuitive interface, designed to increase productivity and reduce costs.

Print Management

Epson Print Admin
A server-based solution that creates a secured centralised printing, scanning and copying environment through user-authentication. Advanced reporting functions can help organisations reduce printing costs and run Managed Print Programmes.

Document Management

Document Capture Pro*
Easily scan, view, edit, save and transfer scanned documents. The software optically recognises barcodes, characters and blank pages in scanned documents to separate them into different folders. It allows you to create up to 30 customised job settings, making multiple scan jobs a breeze.

*Document Capture Pro (Windows), Document Capture (Mac OS X)

Document Capture Pro Server
The WF-C5790 is compatible with Document Capture Pro Server, making it easy to seamlessly and locally manage documents. Document Capture Pro integrates into document management and cloud storage systems, enabling you to capture, enhance, edit and distribute scanned documents effectively throughout your business.

Integration with Third-party Solutions

Epson Open Platform
Gain complete control of your printing operations via a range of third-party solutions that enable you to adapt the WorkForce Pro printers to meet specific and changing business requirements with solutions for print and document management.

Robust Security Features

Secured Printing with PIN Release
Print confidential documents by setting a PIN to a print job for release on the printer panel.

IP Address Filter
Secure your documents by preventing unauthorised devices from connecting to the printer.

Panel Admin Mode
Set a password to access and change administrator settings for the printer. This prevents unauthorised users from changing the printer settings.

Limited Access Function (WF-C5790 only)
Reduce risk of information leaks by limiting the access to functions for up to 10 user accounts.

LDAP Address Book (WF-C5790 only)
Prevent information leaks by using the address book registered in the LDAP server to accurately select recipient E-mail addresses.

*1 Print speed (Pages Per Minute) is calculated when printed on A4 plain paper in the fastest mode. Print speed may vary depending on system configuration, print mode, document complexity, software, type of paper used and connectivity. Print speed does not include processing time on host computer.

#1 Black   #2 Colour

*2 The maximum number of printed pages per month based on the performance capabilities of the printer, including ISO rated print speeds and paper handling capabilities.

*3 Default mode in accordance with ISO7779 for MFPs

*4 In accordance with ISO 24711/24712. Actual yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour. A variable amount of ink remains in the cartridges after the "replace cartridge" signal. Part of the ink from the first cartridges is used for priming the printer. Ink is used for both printing and print head maintenance. All inks are used for both black and colour printing.

Information correct as at April 2019
